CRITICAL INFORMATION SUMMARY

Product : ADSL2B-10 - ADSL2+ BUNDLED 10GB download

INFORMATION ABOUT THE SERVICE

ADSL2+ has a maximum speed of 20Mbits/sec download and 800Kbits/sec upload. The maximum speed is very rarely achieved and in most instances the speed achieved will be between 1.5Mbits/sec to 10Mbits/sec.

This service is bundled with the phone line and has a 10GB download allowance per month. Excess charge is \$4/Gb.

This service does not include free phone calls.

This service is available only in exchanges where Optus ULL services are present.

Mandatory Component of the Service

ADSL2+ modem must be purchased by the customer. We can supply the modem but the modem can also be purchased anywhere as long as it is a certified ADSL2+ modem. Limited support is provided on some third party modems.

Minimum Term of the service

This service has a minimum period of 12 months. The activation date of the service is when the service starts.

What is Included

Phone line rental is included.

This service includes a download allowance of 10GB per month. This download can be used anytime during the 24 hour period, no peak or off-peak hours.

Important Conditions, limitations, restrictions and qualifications

The phone line can not be transferred to another service provider by the customer during the minimum period of the service.

If the phone line is transferred during this time, then the customer is liable for an early termination fee of \$110.

If the customer wants to reconnect the service after it is disconnected, then the customer must pay the line activation fee of \$110 and the service is restarted again for the minimum term.

This service can be activated as a transfer from an active phone line from another service provider or as a new connection. If a new connection is required, then there must pre-existing wiring on-site from a previous phone connection.

Please see the additional service conditions for this service on our website
http://www.idx.com.au/Price_ADSL_2Plus.php.
